Become Who You Are Hedwig Dohm 2006-01-01 Hedwig Dohm (1831-1919) was a thinker and writer significantly ahead of her time. She championed women's rights in Germany and criticized with acerbic wit the social, political, and familial inequities inherent in gender relationships at the time of the first wave of the women's movement. Her novella *Become Who You Are* is about a woman, Agnes Schmidt, whose husband has died and who is grappling with finding an identity for herself as an aging widow--reflecting the restrictions imposed especially on aging, widowed women who often yearn for a life and identity of their own. Also included here is the English translation of Dohm's essay, "The Old Woman," which is a compelling call for women to resist the social, intellectual, psychological, and physical restraints placed on women of Dohm's time.

Dit boek staat er vol mee.' - LOUISE O. FRESCO 'Peterson stapt als een magiër door de ideeëngeschiedenis van het Westen, en hij maakt alles urgent, en stralend. Philosophers and Their Poets Charles Bambach 2019-12-01 Examines the role that poets and the poetic word play in the formation of philosophical thinking in the modern German tradition. Several of the most celebrated philosophers in the German tradition since Kant afford to poetry an all-but-unprecedented status in Western thought. Fichte, Hegel, Nietzsche, Heidegger, and Gadamer argue that the scope, limits, and possibilities of philosophy are intimately intertwined with those of poetry. For them, poetic thinking itself is understood as intrinsic to the kind of thinking that defines philosophical inquiry and the philosophical life, and they developed their views through extensive and sustained considerations of specific poets, as well as specific poetic figures and images. This book offers essays by leading scholars that address each of the major figures of this tradition and the respective poets they engage, including Schiller, Archilochus, Pindar, Hölderlin, Eliot, and Celan, while also discussing the poets' contemporary relevance to philosophy in the continental tradition. Above all, the book explores an approach to language that rethinks its role as a mere tool for communication or for the dissemination of knowledge. Here language will be understood as an essential event that opens up the world in a primordial sense whereby poetry comes to have a deeply ethical significance for human beings. In this way, the volume positions ethics at the center of continental discourse, even as it engages philosophy itself as a discourse about language attuned to the rigor of what poetry ultimately expresses. "With its impressive range of both philosophers and poets, this volume opens up new avenues of thinking at the intersections of philosophy and poetry." — Robert D. Metcalf, cotranslator of Martin Heidegger's *Basic Concepts of Aristotelian Philosophy*

The Ritual of New Creation Norman Finkelstein 1992-09-09 Finkelstein examines a wide range of recent Jewish writing, including poetry, fiction, and literary criticism, in order to determine the changes such writing has undergone in its exposure to modern and postmodern conditions of culture. Featuring discussions of such figures as Gershom Scholem, Harold Bloom, George Steiner, Cynthia Ozick, and John Hollander, *The Ritual of New Creation* explores

certain themes that recur in modern Jewish literature: the relation of the sacred to the secular in Jewish writing; the role of loss and exile; "wandering meaning" and textual transformation. This is a book for all readers interested in modern Jewish literature, but especially for readers concerned with literary theory, the relations of text and commentary, and the fate of literary traditions in the contemporary and postmodern cultural milieu.

French Intellectual Nobility Niilo Kauppi 1996-01-01 French thinkers like Roland Barthes, Pierre Bourdieu, A. J. Greimas, Michel Foucault, and Claude Levi-Strauss created the "structuralist" and "poststructuralist" movements. They succeeded Sartrean existentialism and formed a new aristocracy of culture. French Intellectual Nobility is the first study to examine the conditions for the creation of these movements. Through case studies in cultural history, sociology, semiology, and literature, the book discusses the processes that enabled the French intellectual nobility to reinvent itself. By developing a historical and comparative approach, Kauppi analyzes the challenges that an intellectual generation faced, and he contributes to a context-sensitive analysis of culture and power.

Hypothesis and the Spiral of Reflection David Weissman 1989-01-01 This book describes a realist, fallibilist alternative when intuitionism and its psychocentric ontology are rejected. Weissman proposes an agenda for metaphysical inquiry and also a method for testing metaphysical claims. Arguing that science and metaphysics are successive refinements of the maps and plans used in practical life, he affirms that metaphysics is to complete our self-understanding by locating us within a world we have not made. This book is a sequel to *Intuition and Ideality* which surveys the many versions of intuitionism--intuitionism as it prescribes that reality be identified with mind itself or with the things set before our inspecting mind.

Darwinian Natural Right Larry Arnhart 1998-04-02 This book shows how Darwinian biology supports an Aristotelian view of ethics as rooted in human nature. Defending a conception of "Darwinian natural right" based on the claim that the good is the desirable, the author argues that there are at least twenty natural desires that are universal to all human societies because they are based in human biology. The satisfaction of these natural desires constitutes a universal standard for judging social practice as either fulfilling or frustrating human nature, although prudence is required in judging what is best for particular circumstances. The author studies the familial bonding of parents and children and the conjugal bonding of men and women as illustrating social behavior that conforms to Darwinian natural right. He also studies slavery and psychopathy as illustrating social behavior that contradicts Darwinian natural right. He argues as well that the natural moral sense does not require religious belief, although such belief can sometimes reinforce the dictates of nature.

Values and Virtues Timothy Chappell 2006-11-16 After 25 centuries, Aristotle's

influence on our society's moral thinking remains profound even when subterranean. Typical members of our society can often be made to see that their moral thought and action are, in crucial ways, unwittingly Aristotelian. No one in contemporary philosophical ethics can afford to ignore Aristotle. Much of the finest work in recent moral philosophy has been overtly and professedly Aristotelian in inspiration. And many writers who would officially distance themselves from Aristotle and his contemporary followers are nonetheless indebted to him, sometimes in ways that they do not realise. Values and Virtues provides a platform for some notable writers in the area to present and discuss their new ideas about Aristotelian ethics in a way that will advance the academic debate and engage the interest of a broad range of philosophical readers. Gender and the Journal Associate Professor of English and Director of Core Writing Cinthia Gannett 1992-01-01 This book explores the gendered historical and social contexts and discursive traditions that have characterized journals and diaries in academic discourse. The tension between the term "journal," which has a variety of positive public and scholarly connotations, and the term "diary," which is currently understood as a feminized, trivial, and confessional kind of writing inappropriate for school, is a critical part of the problem. This book uses the developing and shifting notions of diary and journal to explore several critical questions about the larger relations between gender, language, canonicity, and academic discourse.

The Intimate Life of an Ottoman Statesman, Melek Ahmed Pasha (1588-1662)

Evliya Çelebi 1991-01-01 Robert Dankoff has culled passages from Evliya Çelebi's Book of Travels that deal directly with the life and times of Çelebi's patron, Melek Ahmed Pasha, an outstanding seventeenth-century military and administrative leader. Çelebi's account is sensitive to all the currents of his age and reflects them in his narrative. His wry comments and observations extend from the intimate details of daily life, and the attitudes of the lower classes, to the deeds of the mighty, the ideals of the age, and the fate of the empire. He concentrates on the later phase of Pasha's career, beginning with his

appointment as Grand Vizier in 1650. Because Celebi was Pasha's confidant as well as his protege, there is a level of intimacy, almost a psychological portrait, quite unusual in Ottoman and Islamic literature. The narrative highlights the private side of this public figure -- his weaknesses as well as his heroics; his religious life and domestic affairs -- in particular, his relations with his two successive wives, both sultanas or princesses.

Dark Night, Early Dawn Christopher M. Bache 2000-05-26 Combining philosophical reflections with deep self-exploration to delve into the ancient mystery of death and rebirth, this book emphasizes collective rather than individual transformation. Drawing upon twenty years of experience working with nonordinary states, the author argues that when the deep psyche is hyper-simulated using Stanislaw Grof's powerful therapeutic methods, the healing that results sometimes extends beyond the individual to the collective unconscious of humanity itself.
