Er gaat niets boven het ontdekken van een jonge schrijver met zoveel kracht en talent.' - Stephen Fry 'Het is het indrukwekkende en schrijnende verhaal van een vrouw die zich met veel moeite weet te ontworstelen aan een gezin waarvan de ouders afzondering zoeken van de wereld, en de pijn die de breuk veroorzaakt.' - Trouw Al op jonge leeftijd moeten Tara en haar zes broers en zussen risicovol werk verrichten in het bedrijf van hun vader. Ze leren een heftig te besturen en verzamelen schroot op het erf om in het onderhoud van de familie te voorzien. Het gezin leeft zo afgesloten van de gemeenschap dat er niemand is om Tara te onderwijzen, haar naar een dokter te brengen na een ernstig ongeluk, of om in te grijpen wanneer haar broer gewelddadig wordt. Tara slaagt er echter in zichzelf wiskunde en grammatica bij te brengen en ze wordt aangenomen aan Brigham Young University. Daar begint haar weg tot zelfontplooiing, waarbij ze niet alleen worstelt met haar gebrek aan kennis door haar geïsoleerde opvoeding, maar ook tot de pijnlijke conclusie moet komen dat een breuk met haar familie onvermijdelijk is.

Canine Enrichment for the Real World Allie Bender 2019-11-08 In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is enrichment? The concept is pretty straightforward: learn what your dog's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today's modern, busy world, the biggest constraint to enriching your dog's life is your imagination! What the experts say about Canine Enrichment: Don't let the word "enrichment" in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog's needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of Animal Training: Successful Animal Management Through Positive Reinforcement Canine Enrichment is a deep dive into what dogs really need and how we can provide it. It's a great book for dog lovers who want to go beyond the standard superficialities of "dogs need exercise." Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of The Other End of the Leash and The Education of Will The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically important perspectives and practical information to improve the lives of their animals. Susan G. Friedman, Ph.D., Professor Emeritus, Utah State University, and founder of Behavior Works, LLC

Waarom we altijd tijd te kort komen Dan Ariely 2010-04-28 Wanneer je mensen herinnert aan de tien geboden, zijn ze minder snel geneigd te liegen, ook als het atheïsten zijn. Een aspirientje van een duur merk helpt beter tegen hoofdpijn dan een goedkoop eigen merk, zelfs al zijn de pilletjes identiek. Als we érgens op kunnen rekenen, dan is het wel op de irrationaliteit van menselijk gedrag. En dus maakt het niet uit hoeveel voorlichting een overheid geeft over de gevaren van onbeschermd seks: zodra de opwinding toeslaat, wordt het gezonde verstand overboord gekieperd, zoals Ariely met een amusant experiment laat zien. Waarom we altijd tijd te kort komen toont met verrassende voorbeelden en onderzoeken aan hoe slecht we in staat zijn de juiste beslissingen te nemen en hoe we met dat besef ons voordeel kunnen doen. Net als Malcolm Gladwell slaagt Ariely erin om de nieuwste inzichten over menselijk gedrag voor iedereen bruikbaar te maken
